## INSTALL THE APP

Remotely operate your smart plug with the easy-to-use Enbrighten app. Follow the available instructions and resources to set up your smart device.

## SPECIFICATIONS – IMPORTANT!

**Smart plug**  
Range – up to 150ft\*  
Maximum resistive load – 1800W  
Rating – 120VAC/60Hz  
Type 1B, Class I, Micro-disconnection, 10000 cycles (M,A), PTI: 175V, pollution degree 2 rated  
impulse voltage: 15kV, overvoltage category: II\*

**Remote**  
Functional range – up to 150ft\*  
Battery type – CR2032

\*Functional range may be adversely affected by one or more of the following factors: weather, radio frequency interference, low transmitter battery and obstructions between the transmitter and receiver.

- Remove and immediately recycle or dispose of used batteries according to local regulations and away from children. Do NOT dispose of batteries in household trash or incinerate.
- Even used batteries can cause severe injury or death.
- Call a local poison control center for treatment information.
- Remove the batteries from the remote if they are dead.
- Do not force discharge, recharge, disassemble, heat above 113°F (45°C) or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.
- Ensure the batteries are installed correctly according to polarity (+ and -).
- Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.
- Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.
- Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

## FEATURES

- A. Manual/program button**  
Press – turn ON/OFF the device  
Press – pair to network
- B. LED indicator**  
Solid red LED – connected device ON  
OFF – connected device OFF  
Flashing blue – Wi-Fi setup mode
- C. Grounded outlet**

## INCLUDED

- 1. Remote**  
**2. CR2032 battery** – installed in remote  
**3. Wall mount**  
**4. Mounting hardware**

## PAIRING TO MATTER-CERTIFIED CONTROLLER

1. Open the Enbrighten or other Matter-certified app.
2. Insert the smart plug into a grounded GFCI-protected outlet.
3. Access the add devices screen in the app.
4. Scan the QR code on the smart device or packaging.

## BATTERY INSTALLATION

- Remove the remote from the wall mount.
- Push down and out from the top of the remote – “I” button is on top.
- Pull out the plastic battery tab from the back of the remote.
- To replace the battery, push the battery drawer tab to the right and pull the drawer from the remote.
- Place battery in the drawer with (+) side of the battery facing up.
- Insert the battery drawer to the remote.
- Ensure drawer clicks into place.
- Red indicator light on the front of remote illuminates when a button is pressed.

## LINKING REMOTE AND SMART PLUG

The remote and smart plug are paired during manufacturing. Follow the steps to add remotes or if your device becomes unpaired.

- Remove the smart plug from the outlet.
- Ensure batteries are installed in the remote and it is near the smart plug.
- Insert the smart plug to the outlet.
- Within 5 seconds of plugging in, press and hold any button on the remote for 2 seconds.
- After 5 seconds of inserting the smart plug to the outlet, the device is paired.

## INSTALLING WALL MOUNT

1. Remove remote from the wall mount.
2. Place wall mount in desired location, mark the mount holes.
3. Mounting options:
  - To attach to a stud, drill holes using a 3/32in. drill bit (anchors are not used).
  - To attach to drywall, drill holes using a 1/4in. drill bit. Gently tap in anchors.
4. Secure the mount with provided screws. Do not overtighten.

## REMOTE FUNCTIONALITY

- Use “I” and “O” buttons to turn the light ON/OFF.
- Press the countdown options to turn on the light for 30 minutes, one hour, two hours or four hours. The light automatically shuts off.

## REMOVING ALL LINKED DEVICES FROM SMART PLUG

- Press the ON and the OFF buttons on the remote at the same time for 5 seconds.
- Receiver deletes ALL programmed remotes.

**Note:** To link remote, see “linking remote and smart plug” section.

## TROUBLESHOOTING

Problem	Solution
Indicator light on the remote does not illuminate when button is pushed.	<ul style="list-style-type: none"> <li>• Battery may be installed incorrectly. Reinstall battery.</li> <li>• Battery may need to be replaced. Install new CR2032 battery.</li> </ul>
Indicator light on the remote illuminates and light does not turn on.	<ul style="list-style-type: none"> <li>• Make sure light is turned on and light bulb is working.</li> <li>• Receiver may have become unpaired. Pair remote to receiver – see linking section of manual.</li> </ul>

## ESPECIFICACIONES IMPORTANTE!

**CAUTION**  
DO NOT MIX OLD AND NEW BATTERIES  
USAR SOLO ALCALINAS, ESTÁNDAR (CARBONO-ZINC) O RECARGABLES (NÍQUEL-CADMIO) PILAS.  
DO NOT USE IN WET LOCATIONS  
NO UTILIZAR EN LUGARES HUMEDOS  
AND PRODUCT DAMAGE LIQUIDS OR IGNITABLE MATERIALS OR EXPLODE CAUSING INJURY  
Y PRODUCIR DAÑOS AL PRODUCTO  
REPLACE ALL BATTERIES AT THE SAME TIME  
REMOVER LAS BATERIAS SI NO SE VA A UTILIZAR DURANTE PERIODOS DE TIEMPO

## WARNING

Ingestion hazard: This product contains a button cell or coin battery.  
DEATH OR SEVERE INJURY CAN OCCUR IF INGESTED.  
A swallowed button cell or coin battery can cause internal chemical burns in as little as 2 hours.  
KEEP new and used batteries out of reach of children.

Immediate medical attention if a battery is suspected to be swallowed or inserted inside any part of the body.

## WARNING: BATTERY WARNING

Battery may leak harmful liquids or ignitable materials or explode causing injury or product damage.  
Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.

Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of batteries in household trash or incinerate.

Ensure the batteries are installed correctly according to polarity (+ and -). Gently tap in anchors.

Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

Do not force discharge, recharge, disassemble, heat above the manufacturer's specified temperature rating, or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.

Non-rechargeable batteries are not to be recharged.

Ensure the batteries are installed correctly according to polarity (+ and -).

Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.

Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.

Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

Ensure the batteries are installed correctly according to polarity (+ and -).

Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.

Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.

Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

Ensure the batteries are installed correctly according to polarity (+ and -).

Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.

Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.

Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

Ensure the batteries are installed correctly according to polarity (+ and -).

Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.

Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.

Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.
