

GE Premium LED Plug-In Light Fixture, Linkable, 12in, 4pc Tray

Specifications

Length of fixture: 12" **Nominal lumens:** 415
Voltage: 120 **Hertz:** 60 **Nominal CRI:** 91
Nominal wattage: 8.11 **Efficacy (lm/w):** 51.17
CCT: 3000K **Max linkable:** 30
Lifetime: 50,000 hours
Warranty: Limited-lifetime warranty

Design Features

- Premium LED 12-Inch direct wire light bar
- Manual High/Off/Low toggle switch. Long-life LEDs, cool to the touch, no bulbs to replace, stays white and stays bright
- Linkable up to 30 fixtures, when converting to a direct-wire solution, installation by a professional electrician is recommended
- Includes power cord, linking cord and screws for easy mounting and installation

Installation Recommendations

- This energy-efficient fixture is the ideal solution for any room in your home, adding light wherever extra light is needed. With the ability to link 30 fixtures while only using a single outlet, get the perfect amount of light for any size room. In addition to being able to plug into an outlet, the light can be wired directly to a wall switch using the optional GE-branded Direct Wire Junction Box to eliminate visible cords. To achieve stylish accent lighting in moments, simply mount the light underneath or on top of kitchen cabinetry, shelving or bookcases using the keyhole slots located at the end of each fixture. In smaller enclosed areas, such as closets and pantries, use the lights to illuminate hard-to-see corners — the light's slim design makes it convenient to place in locations with limited space. The toggle switch makes it easy to operate, allowing you to choose between high and low settings, as well as turn the light off. Make life a little brighter with a GE-branded Premium Linkable Light Fixture.
